**KAMAR INTEGRATION GUIDE**

*February 2021*

© Wonde Pty Ltd

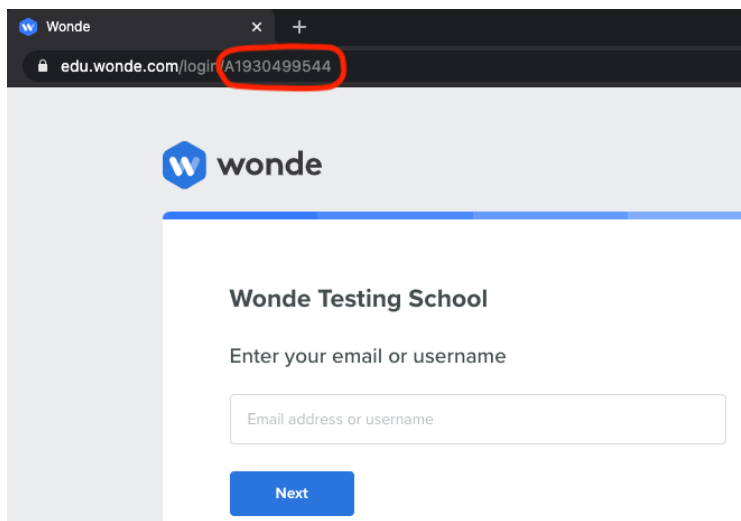

**KAMAR**

To integrate with Wonde at your school you will need access to set up a service in KAMAR and then provide Wonde with these credentials.

If at any point you need assistance you can email [support@wonde.com](mailto:support@wonde.com) or call +612 8310 4489 with your school's name, your request and which SIS you use (KAMAR).

## 1. Setting up a new Service in KAMAR

- a. Go to **Setup > Server** and select '**Directory Services**' from the menu on the left. Click the '**New Service**' button and confirm your intention to create a new service on the popover.
- b. Name your new service "**Wonde**" and then enter the details below:
  - i. **Address** - *inbound.wonde.com/import/kamar*
  - ii. **Port** - *443*
  - iii. **Format** - *JSON*
  - iv. **Username** - This is your school's Wonde ID which looks like '*A1930499544*'. This can be found in the URL when logging into your school's Wonde account.  
To determine this, go to [edu.wonde.com](https://edu.wonde.com), then search for and select your school. The URL will then reflect the username - i.e. *https://edu.wonde.com/login/A1930499544*

- v. **Password** - to be created by the school
- c. Press the '**Check**' button to verify your connection is working. After a few seconds, KAMAR will report the result of your connection. If it worked, you will see a success message.

## 2. Setup of reports

- a. After the Wonde service has been created, you can select what data you would like to send to Wonde. Below are the recommended settings that most applications require, however you can customise these depending upon the needs of your applications.

The screenshot shows the Wonde settings interface. It is divided into three main sections: Students, Staff, and Subject Details. The Students section has checkboxes for Details (checked), Photos (checked), Subjects (Markbook, Timetable, All - checked), Attendance (unchecked), Teams / Groups (Report Only, All Groups - checked), Awards (checked), Learning Support (checked), Pastoral (checked), Assessments (unchecked), Passwords (unchecked), Timetables (unchecked), and Schools (1 - checked, 2, 3, 4, 5). The Staff section has checkboxes for Details (checked), Photos (checked), Subjects (Markbook, Timetable, All - checked). The Subject Details section has checkboxes for Subject Details (checked), Notices (unchecked), Calendar (checked), and Bookings (unchecked).

- b. For syncing Photos, Behaviour and Attendance, it is recommended to set the initial sync to a year to retrieve everything on the first sync. After the first sync it is recommended to set it for daily. An example of these syncing options are below:

The screenshot shows the Wonde settings interface with a dialog box titled 'Student Attendance Data' open. The dialog box contains the following text: 'Due to the quantity of attendance - each upload only includes new / updated attendance. Warning: Sending all attendance will place a significant load on your server - avoid sending a 'Full Update' during school hours.' Below this text, there is a checkbox for 'Include Attendance' (unchecked) and a text input field for 'Send Attendance Since' with the value '24 Jan 2021 12:00:00 a.m.'. To the right of the input field are three buttons: 'Send Day', 'Send Week', and 'Send Year'. At the bottom of the dialog box is an 'OK' button. The background settings are partially visible, showing the same 'Students' and 'Staff' sections as in the previous screenshot.

### 3. Verification

Once the reports have been set up, a Wonde engineer will be required to test that your school's installation was successful. Therefore, please let us know when this has been completed by filling in the following Google form:

<https://forms.gle/VAKgUDTxZ3iVm2qv8>

If you are unable to access the Google form, please email [support@wonde.com](mailto:support@wonde.com) with your name, school name, contact number and postcode so we can assist.
