Cloud School integration guide December 2021

Cloud School integration guide

A third party application used by your school uses Wonde to access school data from a number of MIS providers such as Cloud School. As your school is yet to have the integration setup with Wonde the following steps need to be completed.

Creating a 3rd party user:

Please note; the only User Role which has access to manage the Manage Companies access is a School Administrator account.

Steps:

- 1. Log into Cloud School as School Administrator.
- 2. Go to System > Manage Companies Access.

3. Select the + button located in the top right hand side.

>	Manage Companies Access
