

Compass UK

Integration Guide

Integrating Wonde with Compass UK

One of the applications used by your school connects directly to Compass UK MIS through the Wonde platform, saving you the need to transfer data between systems using CSV's.

Your school is yet to have the integration set-up with Wonde and therefore, to enable the application to work effectively, please complete the following steps:

1. To set up the connection between the approved application and your MIS, your school's Headteacher will need to email: pnguyen@compass.education, cc'ing gkeogh@compass.education and support@wonde.com with a request stating your school gives their permission to share their data with Wonde for the purpose of syncing with the application.
2. Compass will create the credentials for the connection and they will send these back to your Headteacher's email.
3. Once you receive the credentials, kindly send it to Wonde password protected to support@wonde.com or call us on 01638 438094.
4. The Wonde team will then complete the process and confirm the connection is working successfully.
