Databridge Integration Guide

A third party application used by your school uses Wonde to access school data from a number of MIS providers such as Databridge. As your school is yet to have the integration setup with Wonde the following steps need to be completed.

Integrating Wonde with Databridge:

1. Send an email to support@databridgemis.com stating your intention to have permission to access data.
2. Databridge will then respond to your request with the credentials that you will forward to Wonde.
3. Once you have the credentials, send the Domain/URL, API key, your School Name, DfE number and Postcode to support@wonde.com or give us a call on 01638 438094.
4. The Wonde Team will complete the process and confirm the connection is working successfully.

If you have any questions, contact our support team by calling 01638 438094 or email support@wonde.com.
