

ICON

Integration Guide

[Wonde](#) enables schools to sync data from their Student Information System (such as ICON) to their approved 3rd party applications.

Given Wonde is approved to connect directly to the ICON API, no integration setup/installation is required by the school. In order to establish this connection simply follow the steps below.

1. Download and fill out the [ICON Authorisation form](#) and have your principal sign it.

Please note: to request a copy of the form pre-populated with your schools details please email ausintegrations@wonde.com.

2. Once the form is filled out, email a copy to ausintegrations@wonde.com.

Once the form has been returned to us, we will set up the connection with MACS/ICON directly and let you know when this is complete and has been tested. Please let us know if your school is still in the process of migrating to ICON and if so when you expect the migration to be complete.

To discuss the integration or if you have any questions, simply [book an appointment](#) with the Wonde Integrations Team and we will be happy to assist you.
