

Juniper Integration Guide

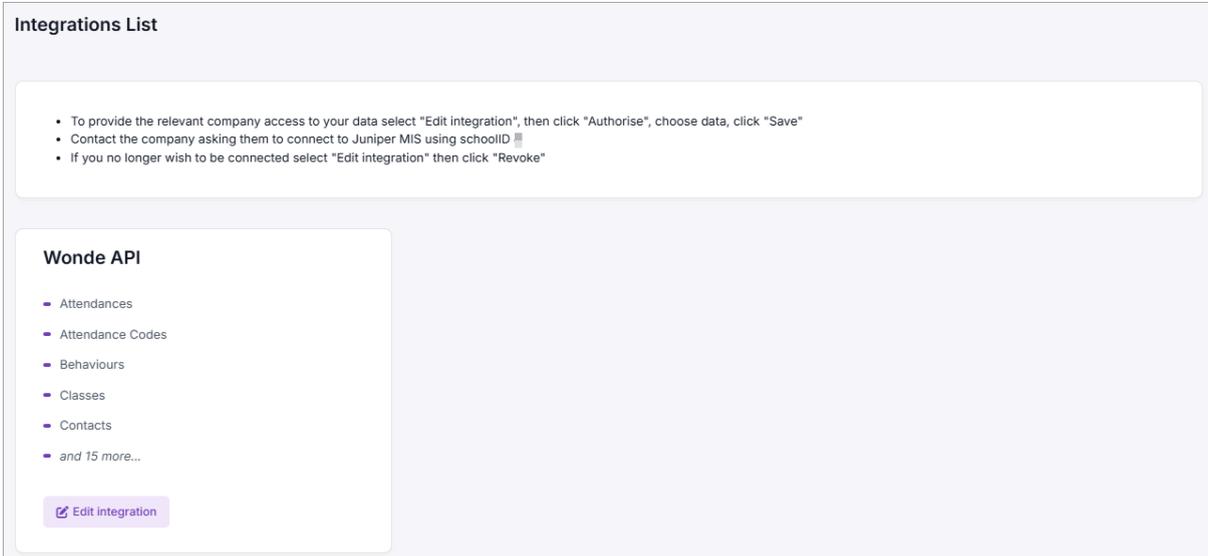

External guide

Juniper external integration guide

To integrate with Wonde and obtain your school ID, please follow the steps below. Once complete, please send your **school ID** to support@wonde.com.

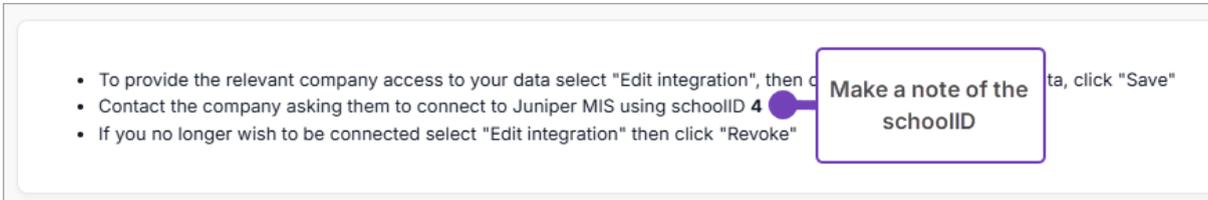

Instructions

1. Log into **Juniper** and select **Manage**.
2. Select **Settings**.
3. Select **Integrations** to view the **Integrations List** as shown below:

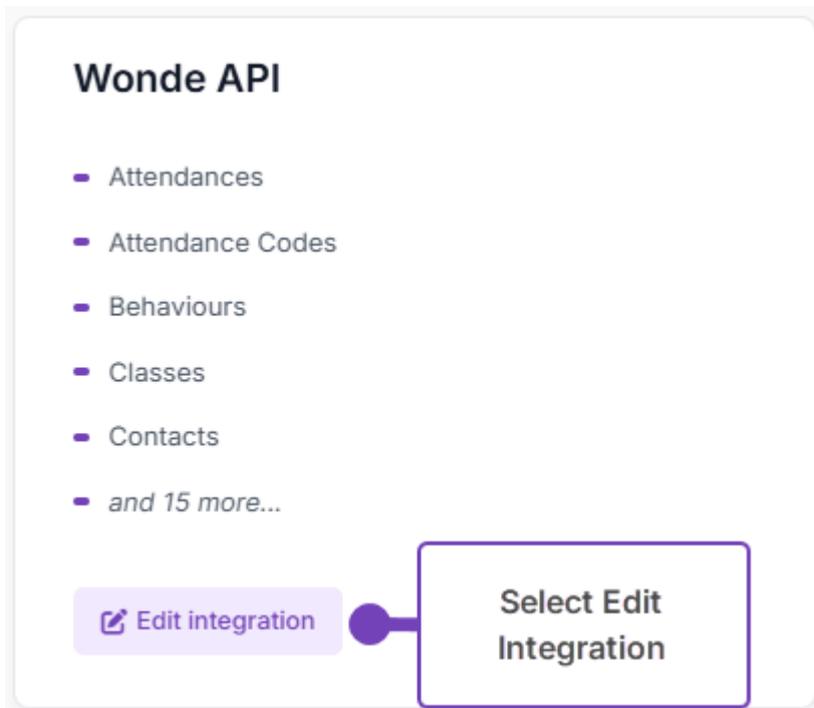

The screenshot shows the 'Integrations List' page. At the top, there is a header 'Integrations List'. Below it, a white box contains instructions: 'To provide the relevant company access to your data select "Edit integration", then click "Authorise", choose data, click "Save"', 'Contact the company asking them to connect to Juniper MIS using schoolID #', and 'If you no longer wish to be connected select "Edit integration" then click "Revoke"'. Below this is a 'Wonde API' section with a list of data types: 'Attendances', 'Attendance Codes', 'Behaviours', 'Classes', 'Contacts', and 'and 15 more...'. At the bottom of this section is a purple button labeled 'Edit integration'.

4. Make a note of the **schoolID** displayed at the top of the page:

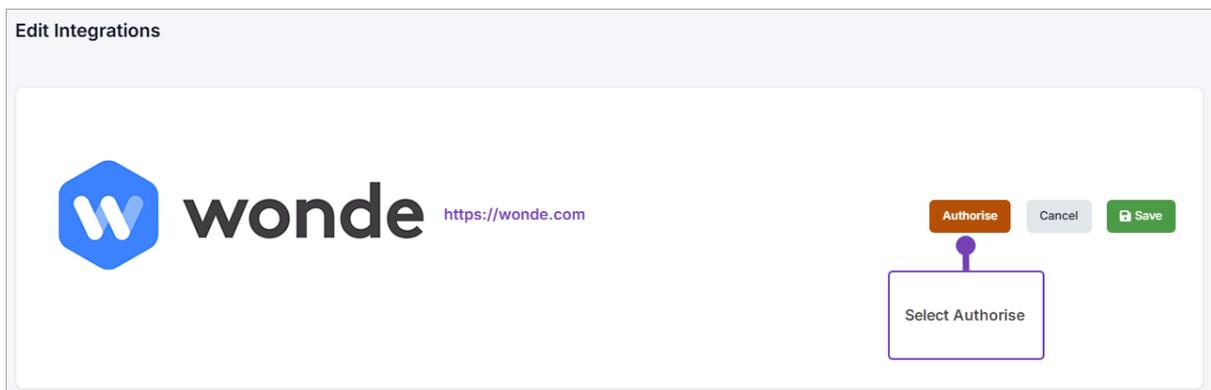

This screenshot is similar to the previous one but includes a callout box. A purple box with a white border and a purple dot pointing to the '4' in the second bullet point contains the text 'Make a note of the schoolID'. The second bullet point in the instructions reads: 'Contact the company asking them to connect to Juniper MIS using schoolID 4', where the '4' is the schoolID being highlighted.

5. Locate the **Wonde API** integration and select **Edit Integration**:

6. From the **Edit Integrations** window, select **Authorise**

7. Send the **schoolID** (from Step 4, above) with your **School name**, **DfE number** and **postcode** to support@wonde.com.

Outcome

After your integration has been authorised, the data types you want to export can be updated, and access can be revoked if required:
