RM Integris MIS integration guide

A third party application used by your school uses Wonde to access school data from a number of MIS providers such as RM Integris. As your school is yet to have the integration setup with Wonde the following steps need to be completed.

Integrating Wonde with RM Integris:

- 1. Log into RM Integris as an Administrator.
- 2. Hover over the modules tab at the top of the screen and then click System Management. Once this tab opens, click on RM Integris Datashare at the bottom of the list.

3. You will then be presented with a page listing all companies approved for Datashare Management. If you scroll to the bottom of this page, you will see the Wonde Logo.

4. Click on the Wonde logo, a page will then appear stating what the integration covers. In the bottom right of this page, please click on the "Grant Access" button.

5. A confirmation box will appear, please click the checkbox to confirm you have read and understood the terms and conditions, and then click on continue.
