# Veracross Integration Guide

A third party application used by your school uses Wonde to access school data from a number of SIS providers such as Veracross. As your school is yet to have the integration setup with Wonde the following steps need to be completed.

1. Log in to the Veracross Partner Portal.

2. Beginning on the **Identity & Access Management** homepage, click the "Add Integration Partner". Under the Integration heading on the General page, click "Start Integration".  
*Please note: the version required to complete the integration is Version 3.*
3. On the next screen, you will see the; "Display Info", "Internal Details" and "App Credentials" section.

Scopes

Login History

SCOPES

OAuth scopes limit an application's access to resources. You should choose only the minimum scopes an application absolutely requires.

Available OAuth Scopes (click to add)

List Courses

Read Course

Update Course

Read Household

Active OAuth Scopes (click to remove)

List Class Attendance

Read Class Attendance

Update Class Attendance

Create Master Attendance

- Please send the following credentials: Client ID, Client Secret and School Route with your School Name, DfE number and Postcode to [support@wonde.com](mailto:support@wonde.com) or give us a call on 01638 438094.
- The Wonde team will then complete the process and confirm the connection is working successfully.

The below permissions that would cover all applications that use Wonde for integration are as follows.
