# Xuno Integration Guide

A third party application used by your school uses Wonde to access school data from a number of MIS providers such as Xuno. As your school is yet to have the integration setup with Wonde the following steps need to be completed.

1. Log into Xuno Portal as a staff with admin access rights.

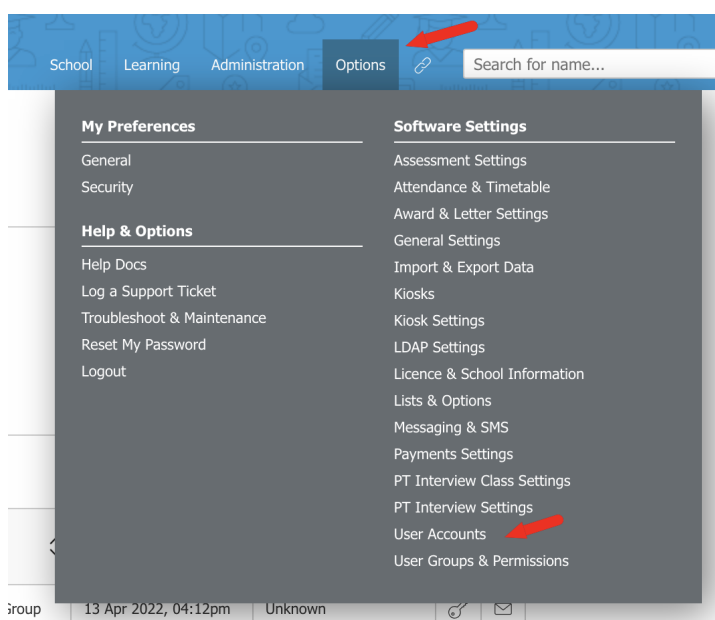

The image shows the login page for the Xuno Portal at South Melbourne College. It features a login form with fields for 'Username or email address...' and 'Password...', a 'Sign-in' button, and a 'Forgot your password?' link. Below the form are options to 'Sign-in with Microsoft' and 'Sign-in with Google'. A yellow warning box states: 'The browser you are using is currently not supported by XUNO. Please upgrade to the newest version of your browser.' At the bottom, it says 'Powered by XUNO'.

XUNO requires cookies to function correctly. By logging in, you agree to the use of cookies. [More info](#)

5. To finalise the integration, please fill out [this form](#) with your School name, Contact details, Domain URL and API key.

6. The Wonde team will then complete the process and confirm the connection is working successfully.
